# MINERPAD FA

## AQUEOUS PIGMENT DISPERSIONS FOR SCOURING FIBERS

Minerpad FA® colours are water-based dispersions of organic pigments, finely dispersed and homogeneous, suitable for the dyeing of scouring fibers used in domestic and industrial cleaning sectors.

The colour card shows the range of basic shades, which can be personalized according to customer requirements.

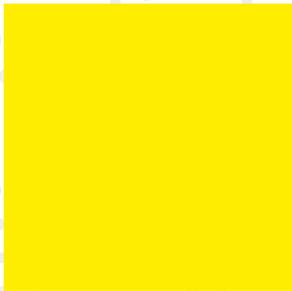

### ADVANTAGES

- ✓ High dispersion degree (< 2 micron)
- ✓ Excellent colour yield
- ✓ Optimal reproducibility
- ✓ Tailor-made colour card
- ✓ Optimum compatibility with systems and technologies used for production of scouring fibers
- ✓ Suitable for automatic dosing system
- ✓ APEO free
- ✓ Low VOC content
- ✓ Formaldehyde free

## MINERPAD FA COLOUR RANGE

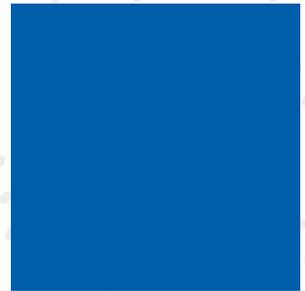

YELLOW FA 101

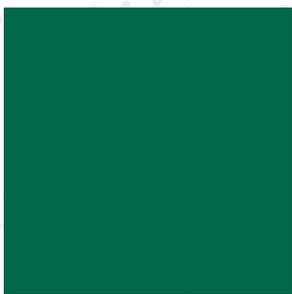

ORANGE FA 110

RED FA 121

BLUE FA 151

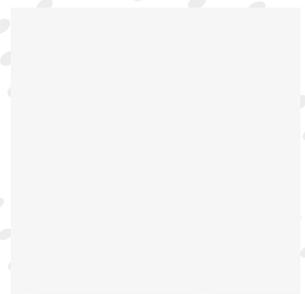

GREEN FA 162

BROWN FA 172

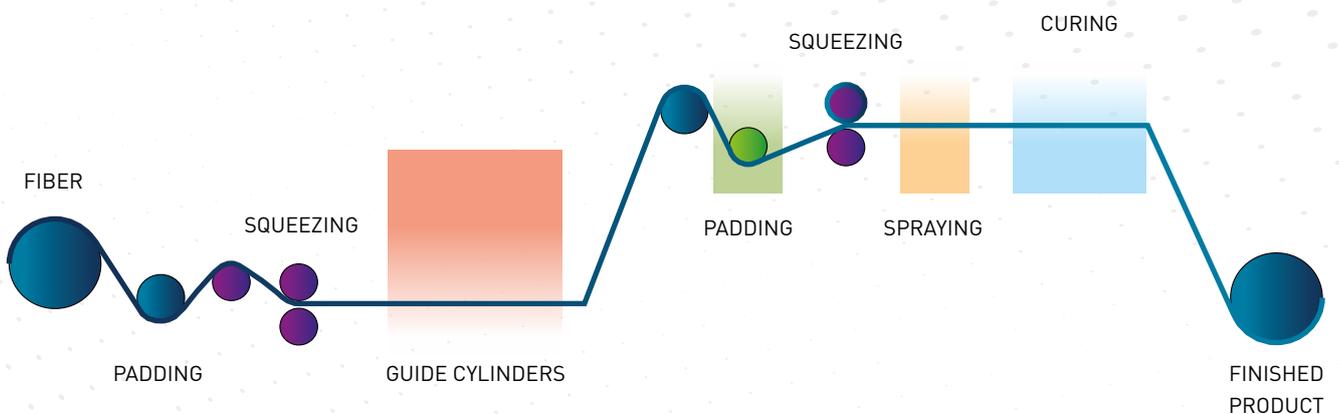

BLACK FA 181

WHITE FA 191

## PRODUCTION PROCESS DIAGRAM FOR SCOURING FIBERS

Note: data contained in this document are based on our current knowledge and experience, they are not to be considered a guarantee, considering the numerous factors that can influence the process and application of our product. This data doesn't relieve users from carrying out their own preventive tests. The colours shown in this chart are purely indicative.
